() What is something you (the student) could have done to improve your experience in the course?

- Participate in classes more active .I finish reading quickly. I give my peers many useful comments. Finish assignments carefully.

- 1. I wondered around in class sometimes, I should have stay more focus in class.
- 2. I could have spent more time on my essay at home, in order to make my essay better.
- 3. I should have took the advantage of the writing center, to improve my writing skills more.
- attend class from the very first day so I wont miss on home works and lessons. logging in to the online moodle to understand it better
- I'd have really more on myself rather asking my teacher or going to the writing center. unfortunately our educational system in our country taught us by feeding us by the spoon. so when it came to learning we tend to ask other rather than trusting our self. Thus, I think you might consider to try making international students more confident in their self by letting them think for their self, maybe for example in class 135 you give students in-class assignments maybe this will help with this class.
- work in class more as group is really help students and be confident.
- I did a lot of things. I spend many time on my papers and work hard to write a good paper

() What is something Carolina does well (that is, something you hope that she will continue to do in the class in the future)?

- Gave me more time and comments for my paper which is helpful.
- 1)Give me many comments which are very careful.2) Never late. 3)Give students many notes on the board.
- She does the feed back for the essay wonderfully. I like who she use the side-headers commutes style. its really help with understanding my mistakes and what to do. I recommend keeping it.
- she did many things but I think make the course without final is helping us to focus on our paper and improve our skills
- being supportive and showing us the fun behind writing.
- 1. She was being really friendly to students, and always have a smile on her face.
- 2. The points she made in class were really clear and easy to understand.
- 3. Whenever I have problem in class, she is always willing to slow down and explain the things that I didn't understand to me.
- 4. The comments she made for then essay were easy to understand, and really helped me a lot on improving my writing skills.

() What specific suggestions do you have for improving the course? Remember the type of course this is when providing suggestions.

- Improve hand-writing on the board. More practice about what we learned that day in class activities.

- make the workshop with more one students. I think will help students to improve his paper
- Students be more active in the class. Add more technology in class to make students do better in writing.
- I notice she like to give students the choice democratically. when there r many students in the class, just chose the conference time or putt it in moddel since its in-class time, and it waste a lot of class time. just saying
- 1. The workshop activity helped me a lot, I think it would be a good idea to keep it and maybe increase the amount of time for that.
2. Using the example readings in class really helps, I would like to see more of that in the future.
- have the class moved to a better room with fresh air coming through it caused me dizziness other than that the class was pretty good

() What else do you want your teacher to know?

- Office hour is too short. 15 minutes is not enough.
- thank you so much. I like your way in class. I hope next class without finals
- she is great :)
- I think she is a lovely teacher, and I really enjoy her class.
- she is a very good teacher. She is positive and her energy is good for the students. She sounds like she likes writing and want us to like it too.
- She is the greatest and the best teacher I have ever had. Sometime she is tough but it is good for me.
