() What is something you (the student) could have done to improve your experience in the course?

- .
- I should have read more to improve the vocabulary bank and writing.
- I should have gone to the professor more often for help with my papers, but instead I chose to figure all out by myself.
- free writing
- I need study hard more than this term, in next term.
- I go to writing center and I talk with American to make my essay better
- Reading a lot
- nothing
- I should have give myself more time to work on my paper.
- I improved my writing skill, I learned how to write paper which is more than 5 pages ,I got benefit for writing more than before
- Writing about daily events.
- Read more English books and improve my English level, I need usually pay more attention to the problem of grammar and pronunciation.
- nothing

() What is something Carolina does well (that is, something you hope that she will continue to do in the class in the future)?

- Her commenting to tells us our mistake
- give a feed back for the student to know how correct there write

- I love the fact she understands us international students and goes easy on us. I love the fact that she puts her smile on her face when some of the students did not do what she asked them to do. She's very good with explaining the materials, and she would go through a problem that you're having trouble with until you (student) understand it. She was very helpful with her feedback I strongly hope that she will continue doing what she does. She's an excellent teacher!
- To be honest nothing, it was a horrible course for me with Carolina. I wish if she never teach me again because she made me really tired and hate writing. And she is not a good teacher to teach international students and she doesn't know what the international student suffer because the language.
- - provided a lot of feedback throughout the semester.

-makes good use of examples and illustrations.

- challenges students to think and be a better students
- explains really well,
- feedback is very useful
- She can listen to the problems of the classmates, and answered patiently, when she review the paper, she has coherent interpretation of the thesis.
- She gives us a large of knowledge in our class. It is best for us.
- the card
- The ways she taught the international students and the way that she explains the assignment.
- some of the activities in class such as reading and find the main idea
- All what she did was good.

() What specific suggestions do you have for improving the course or the way it is taught?

- She should always give the feedback to the students after they submit the second draft as always. The help students figure out what they did wrong or mass up in the paper.
- teaching the subject before the HW
- less writing more explaining
- Practice writing in class "not graded"
- we need more practice in a class

- I believe that the course is being taught well today, but one thing that I think would very helpful for future international students or recently students, is for the teacher have a moment with the students (more like a requirement thing) at least two times in a term because looking at how many students were quite in class, I think they are shy to go to the professor and get help when they needed. I believe since this would be more like requirement thing, students will have to be open more to the teacher.
- Increase the interaction with students, improve the enthusiasm of students in class.
- I think student will need more time in some essays before they return it because they might do not have enough time to finish it
- Make it in appropriate time such as after noon.
- No, Thank you!
- more activates that are not part of grad like writing in class.
- continue on feedback and give more comments
- She has to organize the time and her ideas for class. Explain the assignment instead of spend the time checking Moodle to see how sup met their essay. Also, I prefer if she give us a good example in class to understand the topic clearly because she gave us same topic to explain the all assignment and that was not helpful.

() What else do you want your teacher to know?

- It was excellent course. and very nice teacher. I have the ability to keep up with the class without struggling in the materials.
- I would like for her to know that I enjoyed her class, and that she's a very good professor.
- She was awesome as writing teacher.
- I want to say that Dr.Caroline is a great professor and I am grad that I had her as my professor.
- NOTHING
- Challenges Face student's
- nothing else to say but I would like to thank Dr. Carollina
- I appreciate your work
- I hope she cancel the workshop in class because it is not helpful and it waste our time. Also, when we asked her a question in the workshop she said asked your friend to help you and that was horrible and she made it more hard for us to understand our mistake and how we can correct it.
- No, thanks.
- I would like to let her know that I've never met a women instructor like her before. She is too kind and indulgent but sometimes :).she is a good instructor and I would thank her for everything. Thank you Dr. Calorina Morales, just keep going and don't change anything. You are the best.
- No, Thank you!
