11 - What did you like about this course?	
Return Rate	10/23 (43.48%)
<ul style="list-style-type: none"> All the writing and reading helped my academic skills. I learned a lot that i didn't learn in high school. I liked how everything was on the syllabus and everything we did was in order I liked the creative writing papers Being a freshman in college, it was very important that I didn't get too caught up in the transitioning process to college from high school. I liked how my professor acknowledged the fact that I was a freshman by teaching us the differences in what I learned in high school versus what I will learn in college. I also liked how organize she was by printing out a class plan for each day that I had class, creating a calendar for me to keep up with upcoming class assignments, and staying on top of her grades instead of waiting until the last minute to submit graded assignments like I was so use to dealing with in high school. She is also very clear on what she wants, and is open to answering any form of questions (be it in class or during office hours) I had without giving me any signs of attitude or making me feel insecure about saying what was on my mind. Everything was organized very much I liked how she encouraged us to ask questions and she wanted us to learn. I liked that I knew most of what we were learning before I took this class. One thing Dr. Morales did was always have a positive attitude every morning. She was always encouraging us to participate in the class. I liked the mixture of assignments we were given. This gave us the opportunity to broaden our horizon's with different topics and styles of writing. 	

12 - What did you dislike about this course?	
Return Rate	12/23 (52.17%)
<ul style="list-style-type: none"> Nothing The tests that we had over what we read. The questions were hard to understand and many students did not know what the professor was asking for. I disliked the amount of workshops we had towards the end, because it got a bit overwhelming to not be able to work on my essay by myself. The essays All of the reading Nothing honestly. Everything is graded really perfectionist the difficulty I had finding requirements for the papers online I didn't like how she wasn't very clear about certain things. Maybe she should be more clear when she discusses assignments because sometimes i would get confused but i would be afraid to ask. I didn't like how I knew what we were learning before I took this class. When we were given assignments at the beginning of the year it was very unclear on what we had to do. I would come to class not knowing what we had to do, and assignments that had to be turned in. I just think it would be better if instead of using a calendar online you tell the class they have a reading assignment. Because some nights I would forget to check the calendar, and would come into a quiz the next morning and I would not be prepared. I did not like that this course was all about writing. I feel that an english class should also involve reading of some kind.

It is hard for a lot of people to come at 8 and focus on writing for an hour.
